

VAPPRO 748 LIQUID CORROSION INHIBITOR FOR HYDROTESTING OF TANKS/PIPES

NATO STOCK NUMBER:

DESCRIPTION

Corrosion Inhibitor Against Salt Water And Corrosive Solutions

Vappro 748 is a yellow water-based free flowing liquid, specially formulated to protect ferrous metals and equipment from corrosive solutions containing more than 500 ppm of Chloride. It provides long-term protection of equipment against salt water, brine and other highly corrosive solutions.

The formulation of Vappro 748 provides good protection to equipment used in deep and hot wells in both gas and oil applications. Vappro 748 does not contain toxic substances like Chromate, Barium Bromate or any Ozone depleting substances.

Vappro 748 is also fortified with proprietary biocide for combating the growth of bacteria, algae and slime.

TYPICAL APPLICATIONS

- Prevent water-bottom corrosion in oil storage tanks, and ballast tanks of ships and offshore platforms.
- Inhibitor for closed loop cooling systems.
- Hydrostatic solution, inhibitor for pipelines, pipeline casings, tanks, and valves.
- Treatment of high fluid level wells.
- Packer fluid treatment.
- Provide corrosion inhibition to salt water used for cleaning or blasting.
- Desalination plants.
- Fertilizer plants and equipment.
- Pulp and paper process equipment.
- Mines, mining and earth moving equipment.
- Closed circuit cooling systems containing brine solution.

A member of NACE

ADVANTAGES

- Effective for a broad range of applications to stop aggressive corrosion from fresh and salt water, brine, chloride and other dissolved halogens.
- Provides effective corrosion protection against aggressive attack from high chloride solutions that overpower and break down conventional corrosion inhibitors.
- Ideal for use in deep and hot wells.
- Low concentration effectiveness provides economical treatment.
- Readily water-soluble liquid for easy application.

DIRECTION FOR USE

Vappro 748 should be added at 1000ppm by volume for severe applications and 500ppm by volume for less corrosive conditions.

AVAILABLE PACKAGING

20 liters pail or 208 liters drum

SPECIFICATIONS

Appearance Light Yellow Liquid

Viscosity Free Flowing Liquid

Flash Point None

Specific Gravity 1.01

Odour Odourless

Thaw Stability Stable

pH 9-11
